

ECAP: Moving from Compliance to Culture

Free ECAP Implementation Training for Administrators!

The Arizona Department of Education is offering **FREE** professional development opportunities for district and site-level administrators* on the Education and Career Action Plan (ECAP) process. This four hour training is designed to help your district or school take its ECAP process to the next level: from checking a box to comply with state accountability requirements, to creating a college and career ready culture that truly makes a difference for students. Participants who complete this training will receive a certificate of four professional development hours.
